Α ΦΩΝ ΒΑΣΙΛΑΚΟΥ

14 - 9 - 1932

## A Story That Began in 1932

The story of VABER began in 1932 in Piraeus, through the production of brushes, brooms and traditional tools. From the very beginning, the company was built on experience, handmade quality and a close understanding of professional needs.

Over the years, we developed a nationwide sales network and established our strong position in the painting tools market. After a major fire in the 1970s, we made a new beginning, almost from scratch, investing in modern equipment, new products and continuous development. Today, the third generation continues VABER's path with respect for its heritage and a clear focus on the future: high quality painting tools, professional reliability and expansion into international markets.
